ISTE Standards Presentations & Workshops

Intro to ISTE Standards

Get to know the educational technology standards that are designed to empower student learning and ensure that learning with technology is a student-driven process.

In-Person or Virtual Delivery

Diving In to the ISTE Standards

Calling All Innovators! In this workshop, participants will explore, unpack, and fall in love with the ISTE Standards for Students. Whether new to using technology in the classroom, or an "old pro" at it, teachers will be better equipped to teach with technology when they embrace the standards that put teaching and learning first, technology second, and students right in the center.
